So, here we are all alone
As the wine makes you mine for the night
Soft is the way that you feel
And hard is the way that we breathe in, out, we're
moving
Around with the dirt on the floor
I know what I lack is devotion
And I can't fight this off anymore

We'll go surrender to the night
We won't look back at our lives
And when you sleep I'll be there
To kiss your lips to breathe your air
Right or wrong it must go on
After this night we'll leave it all behind
Yeah behind, oh

Two hearts beat as one
As I open my eyes, oh
Well do you want me to keep going?
'Cause I have already come all undone

We'll go surrender to the night
We won't look back at our lives
And when you sleep I'll be there
To kiss your lips to breathe your air
Right or wrong it must go on
After this night we'll leave it all behind
Woo oh

Now she's calling
And it hurts me to go, oh
Away from my favourite addiction
There's no way that she'll ever know

We'll go surrendering to our li-lives lives lives
When you sleep, I'll be there
To kiss your lips, to breathe your air
Right or wrong, it can't go on
After this night, we'll leave it all behind yeah
Oh, behind yeah

But I'm still feeling
Drawn to you
In my dreams
So it seems
The man in me always
Gets his way
Never pays
For what he's done

I need you now love
(Love)
Love
(Love)
Love
(Love)
I crave you now love
(Love)
Love
(Love)
Love
