15 dollars and 35 cents  
I'm a drink away from a spiritual experience  
Rhythm section and a beat up microphone  
I keep it under control  
God knows but he just ain't telling  
I've been down by law from Fort Hill to McClelon

But I gave up all that shit long ago  
There's more to life than just screwing up you know

So I hit that mic like a lyrical mopar  
Judge jury and executioner

Radio keeps playing but I ain't listening  
Got a drum kit set up in the corner of the kitchen  
I'm just rocking steady while the system broadcasts  
lies  
I'm not getting compromised.

Coming through in that basement style  
I'm gonna kick down the walls in that basement style.
