(Why are you leaving me now boy?)

We were not just lovers
We were not just friends boy
The time we shared was not a simple love affair
Noooooooo, We learned about each other
That you're so afraid of the love boy
There is no one that could ever love me better
Noooooooo

Time and time again
I thought you were my friend
You say you gotta go
And I want you to know

(CHORUS)

If you leave me now boy
I'll close my eyes and I'll just lay down and cry
Why would you leave me now boy?
After all the things that we've been through
You say you leave me now boy
And when you're gone what am I supposed to do
And if you wanna come back to me
I think you should know that I'll be loving you
(I'll be loving you)

No more changes for my life
I pray to God that you'll come back to me
When we're together
There's nothing better than loving you

I wanna know why you're leaving boy
The love we had was an open door
What happened to the dreams we shared
Together noooooo

Time and time again
I thought you were my friend
You say you gotta go
And I want you to know

Why are you leaving me now boy

After all the things that we've been through
(You know I love you)
You know I still love you
(You know I need you)

Time and time again
I thought you were my friend
You say you gotta go
And I want you to know

(CHORUS)

If you leave me now boy
I'll close my eyes and I'll just lay down and cry
Why would you leave me now boy?
After all the things that we've been through
You say you leave me now boy
And when you're gone what am I supposed to do
And if you wanna come back to me
I think you should know that I'll be loving you
(I'll be loving you)

(CHORUS)

If you leave me now boy
I'll close my eyes and I'll just lay down and cry
Why would you leave me now boy?
After all the things that we've been through
You say you leave me now boy
And when you're gone what am I supposed to do
And if you wanna come back to me
I think you should know that I'll be loving you
(I'll be loving you)

(CHORUS)

If you leave me now boy
I'll close my eyes and I'll just lay down and cry
Why would you leave me now boy?
After all the things that we've been through
You say you leave me now boy
And when you're gone what am I supposed to do
And if you wanna come back to me
I think you should know that I'll be loving you
(I'll be loving you)
