And it's just another question
Just another answer I won't be getting
Just another question
Just another answer I won't be getting

Another day working for the laugh track
Third of my pay, I get nothing back
Another day in the 2 party system
One speaks for devil, the other for the businessman
And what the hell's up with that?
All of a sudden laws start getting passed
That I don't remember requesting
Am I citizen or am I just a guest here?
And didn't I express my opinion?
Oh yeah, but you weren't fucking listening
And then the bombs start falling
Distraction from what's really going on

And it's just another question
Just another answer I won't be getting
Just another question
Just another answer I won't be getting

What the hell's up with the weed anyway?
What the hell's up with primetime tv anyway?
What the hell they trying to teach me?
That I got to be a moron to live in this society?
Why the hell they keep telling me that I'm free?
Last time I checked with a cop he tried to arrest me
What the hell game kind of game they playing?
From cradle to grave they just keep on playing

It's just another question
Just another answer I won't be getting
Just another question
Just another answer I won't be getting
