The firework display  
Not your patriot  
Today or any other day  
Flags waved in my face  
We watch explosions in the night sky  
Remembering someone died  
For your free dumb  
The empire don't taste so good  
The dead reign of fools  
This home of bones we're born in to

We drink from the sewars  
Because there is no clean water  
We send our children off to die  
Calling it peace instead of slaughter

The babies keep on coming  
The hopeful keep on loving
