"Pass Out"

Visit "[Pass Out](#)" on MotoLyrics.com

Hit the pavement in the rain
Stay inside and sleep all day
Everything's going to change
See the lovers and their friends
Fucked up at the bar again
The cycle never ends
See the bar tender smile
You know you can hang out for a while
Cuz all the drinks are free

When the city brings you down
Order up another round
You get so drunk that you pass out

Was alcohol your first love
Come on stand up
Have a drink on me
Stumble round the room all nite
Drink smoke and fuck until the morning light
And everything's alright

When the city brings you down
Order up another round
You get so drunk that you pass out
