Sometimes sometimes you know
Love is starting to grow
You can't say no feelings will show
Your heart says that sometimes you just know

Sometimes somehow you know
Someone really loves you so
There may be doubts of what love's all about
But sometimes you just know that it's love

Refrain:
Love is a swift thing, love conquers all
And sometimes you just know
You're about to fall
It's really funny when you're out of control
But sometimes you just know it's a true love call

Sometimes somehow you know

All your dreams are coming true
Love means a lot and look at what you've got
Coz this time you just know that it's love

Repeat 1st stanza
(sometimes you know)
Repeat refrain
Repeat 1st stanza

This time I'm sure you know
All your dreams are coming true
Love means a lot and look at what you've got
Yes, this time you just know that it's love
Yes, this time you just know that it's love

Coda:
Sometimes, somehow you know
Someone really loves you so
