Eight thirty you head to work
Get your coffee and your paper and pretend it's worth
it
Shakedown when friday comes
Gotta turn your paycheck into more than surviving
But you know that there's something more than this
Check the music as it hits

Thank you reggae

Wailing souls burning spear operation ivy
Bad brains waiting in vain michigan and smiley
Adf and jimmy spliff, kortatu and scientist
Joseph hill, sublime, manu chao and the skatalites
And when it's 96 degrees you are all the shade I need
To help me make it thru...

Thank you
Thank you reggae

Israel vibration, stray bullets the meditations
Thievery corporation, signing off and delroy wilson
White riot to equal rights drop the bass all night till
daylight
Dillinger judgment dread, alton ellis seed and sizzla
But you know that there's something more than this
Check the music as it hits.
