Are you with me  
Are you with me  
Are you with me

I'm like a pimple on the microphone with locked yaw  
Purring gin in the original non stop  
And in the valley of the shadow of doubt I got a 83  
pickup and a dug out  
Wake up in the morning, start the war  
Put the cap back on the 40, take the train to work man  
I ain't looking for answers like jack calla hur said you  
get your own choice of cancer  
Advocate of the zero hour work, while your busting  
your ass man  
I'm steady home asleep, why the hell should I struggle  
like that  
Even if you win the rat race your still a god damed rat

Are you with me  
Are you with me  
Are you with me

I'm like a sawed off barrel with a pistol grip  
Little sunset over this concrete wilderness  
Voice from the underground bring it to the dance floor  
Raw take I make my testimonial

And in the valley of the shadow of death man  
Sometimes I feel like I'm the only living witness  
DIY since the day I started breathing, fucking forming  
man  
You know I'm going out screaming  
And I ain't changing till I gone,  
Another voice for chaos in the land of Babylon  
Another brick through the window of the establishment  
Coast to coast peace originating from the basement

Are you with me  
Are you with me  
Are you with me
