Lady liberty is bruised and bleeding
Living in a shelter down on 20th and mission
It's a fucking miracle that she's still breathing
Traded in her torch for a needle
Lock down final solution
The lives of the many decided by the few
Gotta be a better way but I don't see it
Ain't no one free in this so called war for freedom
The tomb of the unknown soldier lies empty
The sacrificial lambs are trained and ready
And in the business district the drums of war
Top the charts shake the dancefloor

Wow wow where'd we go wrong?
Wow wow where did we go wrong?
Wow wow where'd we go wrong? we've been running in
the same direction too long
Wow wow where'd we go wrong?
Wow wow where did we go wrong?
Wow wow where'd we go wrong? once there was a way
but now it's gone

Lock the doors turn out the lights
When the cops come knocking better keep it quiet
And a voice keeps talking in the back of my mind
How long can you last where you gonna hide

Eye for eye one devil fights another
When the antichrists clash the innocent suffer
And what's all this about one man one vote
Check who's in the white house it's a fucking joke
In the name of god or in god we trust
Either way it just don't add up
The streets ain't save man stay in your homes
When the curfew falls in the occupied zone
All the rats are jumping ship
And the sailors are asleep below deck
And the captains drunk again
And there ain't no sign of land anywhere

Where'd we go wrong? we've been running in the same
direction too long

Where'd we go wrong? once there was a way but now
it's gone
Lock the doors turn out the lights
When the cops come knocking better keep it quiet
And a voice keeps talking in the back of my mind
Telling me to stop...

As I lay me down to sleep I pray my sanity to keep
And if I die before I wake maybe that's a better way
