Now wish that she was gone  
And I knew it was you!  
I'll never creep around  
You and me, can't get on  
Drive this mystery and prove  
That we'll come out again

I need you to believe  
Believe in me

I need sight of what's gone wrong  
Let me accept it and see  
This ever deepening story  
You and me won't get on  
Got this mystery, now prove!  
It's unfolds all the truth

I need you to believe

-Chorus-

I'm not a million  
Miles away from here  
You cannot see the light ahead  
Now you'll find that I am gone

I've made my decision  
Now you listen here!  
You mistook what you're all about  
No, you're not an Icon!
