## "The Day The Earth Stood Still"

Visit "[The Day The Earth Stood Still](#)" on MotoLyrics.com

We interrupt this program, to give you a bulletin just received from one of our naval units at sea. A large object

Travelling at supersonic speeds is headed over the North Atlantic towards the East Coast of the United States...

I know you did, sir, but the robot's on the loose now and it's not safe around here.

Passion Algebratique - Passion Algebratique

Y, y tu mama tambien  
Y, y tu mama tambien  
Y, y tu mama tambien  
Y, y tu mama tambien

Passion Algebratique - Passion Algebratique

We created a race of robots  
The Universe grows smaller every day  
There must be security for all  
Or no one is secure.

I know you did, sir, but the robot's on the loose now and it's not safe around here

This Earth of yours will be reduced to a burned out scinder  
And preserve the peace  
Join us and live in peace  
Or pursue your present course and face obliteration  
We created a race of robots  
The Universe grows smaller every day  
There must be security for all  
Or no one is secure.

Passion Algebratique - Passion Algebratique

Y, y tu mama tambien  
We'll still be waiting for your answer  
Y, y tu mama tambien

We'll still be waiting for your answer  
Y, y tu mama tambien  
We'll still be waiting for your answer  
Y, y tu mama tambien  
We'll still be waiting for your answer

I Know you did, sir, but the robot's on the loose now  
and it's not safe around here
