Go to sleep, my dead end angel  
Say good-night dear precious one  
For I know you're empty-handed  
And all the police carry guns  
Whisper to me in the morning  
And I'll kiss your blues away  
For I know your body's aching  
And the lynch-mob's on the way  
Just to hear your footsteps  
Climbing up the stairs  
Just to live one single day  
Without a single care  
Go to sleep, my dead end angel  
Say good-night dear precious one  
For I know you're empty-handed  
And all the police carry guns  
Just to hear your footsteps  
Climbing up the stairs  
Just to live one single day  
Without a single care  
Go to sleep, my dead end angel  
Say good-night dear precious one  
For I know you're empty-handed  
And all the police carry guns  
And all the police carry guns
