"Just Love Me"

Visit "[Just Love Me](#)" on MotoLyrics.com

You don't have to be a king
On a throne
What's the difference what you are
What you own

You are all I ever hoped you'd be
Just love me
Just love me

You don't have to put the world at my feet
You don't have to make my future complete
My heart doesn't need a guarantee
Just love me
Just love me

You don't have to prove
A thing to me now
I know that you're heart is true
Just love me tonight
With all of your might
Love me the way that I love you

[VERSE 5]

You don't have to be the man of the hour
You don't have to hold the world in your power
Please don't bother changing history
Just love me
Just love me

[Repeat VERSE 5]
