### "Martin's Song"

Visit "[Martin's Song](#)" on [MotoLyrics.com](https://MotoLyrics.com)

He's only six years old, that old Killer died.  
Put him down in a great big hole, I fill it up all the time.  
See the buildings rise up to the sky, parking meters,  
traffic cops.  
You best watch your record son, they'll come and lock  
you up.  
Chorus:  
I've been working all night.  
I go long into the day.  
Ain't got much money now.  
Got the time ahead, got the time ahead to pay  
Smoke and lightning, dressed to kill.  
Don't talk to strangers, that's all you know.  
Forty years of sudden death, the daylight's still not  
over yet.  
You should live to see evening fall, doctors working  
overtime.  
Too much of a good thing, not enough, stepping  
stones, building blocks.  
(Chorus)  
I've been working all night.  
I go long into the day.  
Ain't got much money now.  
Got the time ahead  
I've been working all night.  
I go long into the day.  
Ain't got much money now.  
Got the time ahead, got the time ahead, got the time  
ahead to pay
