

Jayhawks "Falling Star"

Visit "[Falling Star](#)" on MotoLyrics.com

You keep your distance, I'll keep mine

Away , away now
No I won't fail now
To meet you in some alleyway
I hear the river running
Man, it's a humming
One thousand miles downstream

Falling star
In my window, you look so right
Falling star
You keep your distance, I'll keep mine

Yeah, money to buy now
I paid in hard work
I'll be your young fool
A white flash of daylight
Shoot up the sky high
White bolt from the blue

Falling star
In my window, you look so right
Falling star
You keep your distance, I'll keep mine

Oh, falling star
Oh, falling star
Oh, falling star
You keep your distance, I'll keep mine

Away, away now
No I won't fail now
To meet you in some alleyway
I hear the engine whisper
Man, it's a running
Come on let's get on our way

Falling star
In my window, you look so right
Falling star
You keep your distance, I'll keep mine

Oh, falling star
Oh, falling star
Oh, falling star
You keep your distance, I'll keep mine

Yeah, falling star
In my window, you look so right
Falling star
You keep your distance, I'll keep mine

Have money to buy now
I paid in hard work
I'll be your young fool
A white flash of daylight
Shoot up the sky high
White bolt from the blue

Falling star
In my window, you look so right
Falling star
You keep your distance, I'll keep mine

Oh, falling star
Oh, falling star
Oh, falling star
You keep your distance, I'll keep mine
You keep your distance, I'll keep mine
You keep your distance, I'll keep mine
