There's candles at each table  
Smoke fills the cracks  
Honey, I stopped in to drink  
Tomorrow I'll be back

I'll bet she thinks the world of me  
She's walking out the door  
Misery Tavern  
It's the only place I know

I tried to get along somehow  
Start loving someone new  
Each time I make a start  
I'm right back in that room

I'll sober up long enough  
To find my way back in  
Misery Tavern  
It's the only place I know

Misery Tavern  
Tonight I'll go down slow  
Misery Tavern  
It's the only place I know

There's candles at each table  
Smoke fills the cracks  
Honey, I stopped in to drink  
Tomorrow I'll be back

I'll bet she thinks the world of me  
She's walking out the door  
Misery Tavern  
It's the only place I know

Misery Tavern  
Tonight I'll go down slow  
Misery Tavern  
It's the only place I know
