[ CHORUS: Aaron Hall ]

I think I wanna get away  
I think I wanna fly, fly away  
Fly away  
A nigga need to get away  
I think I need to get high today  
And fly away

[ VERSE 1: Ray Luv ]

Superfly, like a Indo weed and ecstasy high  
I gotta get me some, muthafuckas losin they mind  
Along with they life, everybody wantin to die  
But scared to give in, God, can you teach a nigga to fly?  
I'm tryin to get by, get high till I bust through the sky  
But I'm stuck in the ghetto, for the life of me I can't tell you why  
I'm losin focus, havin flashbacks of rats and roaches  
And ripped sofas, no matter what, I'm gettin over  
I be damned if I go back to that shit and livin sober  
Still I feel the pain, so I pray for God to send a rainbow  
Oh what a tangled web do we weave when we ( ? )  
Get caught up in some shit we can't handle when in the mangle

[ CHORUS (w/ad-libs) ]

[ VERSE 2: Ray Luv ]

Now what could take me higher than Hen, the weed or the gin  
The greed or the sin, the grave or the pen - imagine  
Peaceful days and nights full of passion with no blastin  
Or everlastin repercussions of caskets and sadness  
We need a new drug for the masses, Superfly  
That won't cost me a dime when I'm jonesin to get high  
No need for scissors, zig-zags or plastic bags  
Niggas love the rush from the moment they take a drag  
Better than cannabis, I know it's hard to believe  
Closer to angel dust, impossible to conceive  
Go 'head and take a puff, and then you know what I

mean  
Can't never get enough of the stuff that's servin the  
fiends  
The herb of your dreams take you away from  
murderous themes  
And leadin my team till the players land in honey and  
cream  
The money's cool but won't help me when I struggle to  
breathe  
All of us bleed, so all of us have a spiritual need

[ CHORUS (w/ ad-libs) ]

[ VERSE 3: Ray Luv ]  
I'm startin to peak, I finally found a worthy release  
From all of my stress cause every day I battle the beast  
And think about [Name] I wonder if he restin in peace  
My son and my niece, I wonder if they'll ever be free  
They say we should teach but will the people ever be  
reached  
And finally see the value of the life that we breathe  
All of us need, everybody got a hope and a dream  
We plant em like seeds and pray to God they growin to  
trees  
Battered and bruised, life will beat you down on your  
knees  
You only lose if you snooze or you choose to retreat  
I look inside me for answers tot he questions I seek  
And swear when I speak, mobbin with the ( ? ) I keep  
I reach for the moon, nobody's superflier than me  
With my head in the clouds, happy, high as can be  
Won't you come along with me  
(Won't you come along with me)

[ CHORUS (repeated w/ ad-libs) ]

[ Aaron Hall (repeated w/ ad-libs) ]  
Get high with me  
And fly away with me

[ Ray Luv ]  
Yeah though  
This song is dedicated to George Clinton  
The man that said  
Free yo mind and yo ass will follow  
Remember that  
We doin' it till 2000  
The new millennium  
Peace

[ Aaron Hall ]

Do you understand what he's sayin?  
I'm talkin about within yourself  
Baby  
Oh yeah  
Get the message  
Oh yeah
