"Over My Head"

Visit "[Over My Head](#)" on MotoLyrics.com

Tell me
Tell me truly how to sing this song
Oh I feel so sad and simple when the day is gone

And it's all over my head
It's all over my head
So I wish I was you instead
Cause it's over my, over my, over

Listen
Listen to me as I sing this song
Something strange passing through me moving me
alone

But it's all over my head
It's all over my head
So I wish I was clouds instead
Cause it's over my, over my, over my

What a waste trying to understand
When it's over my, over, it's over my head
