Mm. actually I met him already,
He was the one i loved most
I guess nothing will change!
I don't wish to be everything to him
But I would Like to be something to him!

You will never forget your first love.
That's what makes it so special.
You love so hard, so deeply,
And so intensely because you don't know any
different.
It's the best until it is over.
Then you hurt like you've never been hurt before.

Eventually you love again, but you love differently.
You will love more carefully, more cautiously.
Just know that there is so much more love waiting for
you,
But there will always only be one first.

Mm. actually I met him already,
He was the one i loved most
I guess nothing will change!
I don't wish to be everything to him
But I would Like to be something to him!
