I'll be yours

You can Find, yourself
whateva, but I'm not here
To Close And Open up
For you everyday, baby
Sometime soon I'll be yours"
and you'll be mine,

I know you can love, me baby
all I gotta, do is just wait, wait yeah
For you to realise, Ohh yeah
I might not be there when you want me

Chorus

I'll be yours
and you'll be mine,
we can make our own world
we can grow strong,
and know that tommrow we'll still be there
oh baby I'll be yours,
and you'll be mine
we'll have the fun,
we'll laugh an cry,
we'll just hold hands, til the day we both die
I'll be yours

Dont go, Searching,
what you already could have found
I just want you to learn to love back,
Ohh baby
I'll be yours and you'll be mine,

yeah yeah
Just hold on an relax,with love
Just be you and run with it,
I'll be yours and you'll be mine

da da da da
I'll be yours, Some time soon,

an you'll be mine,
all you gotta do is just dream it to make it come true'
baby

Chorus

I'll be yours
and you'll be mine,
we can make our own world
we can grow strong,
and know that tommrow we'll still be there
oh baby I'll be yours,
and you'll be mine
we'll have the fun,
we'll laugh an cry,
we'll just hold hands, til the day we both die
I'll be yours.
