Dont be complicated

No I wont give up,  
I feel alone inside,  
but outside I feel brighter then ever  
I wanna love you forever,  
I dont want to let go,  
but you just get right under my skin  
its like your my Guiding star

everyday,everynight,  
I think of you,  
I never get over how much i love you  
oh baby,  
come on,hold me like theres no tommrow,  
Gotta love life

I can't let the fun end,  
I gotta be the best of me,  
an you know how it all works  
be your true self,  
dont follow others

I dont want to hold back with fear  
I want to stay right open,  
I dont want to feel,complicated  
come on be easy,  
come on baby,

no I wont give up  
No I wont let fear, hold me back  
gotta let you shine like a star  
up in the sky,  
come on baby,  
Dont be complicated,

Dont be complicated,  
Dont feel fightened,  
Dont Give up No matter what breaks u inside  
You just be your true self

Dont be complicated,  
stay strong,  
Dont Be complicated,  
come on and be here with me,  
I think of you ,  
day an night,

your on my mind 2047,  
so Dont be complicated

Dont let fear hold you back  
Dont feel fightene,  
dont give up no matter what breaks u inside  
you just be your true self  
and they will see,  
that you are you an they are they,  
no matter whats been said,

so i say Dont be complicated.
