Fall the enemy,

So sick an tired, of what you do'
can't let go of the thought I might, seem like you'
when I turn my head, an say no, what are you thinking?
I wanna make things, uncomplicated,
I wanna know the world could be happy with me and
without me'
what would I do if I knew, all the things I never wanted
to hear?

CHORUS

is there time to make the enemy fall,
my angel somewhere up there knows,
somewhere up in the sky, I know someone
I used to love, who passed away ,
is watching over me,
can I get,some happiness,
can I get a chance, when I take one?
Fall the enemy,
I dont want anything misheard or, misplaced
Or thrown away,

I'm not a mirror to look in, an say all what you got say
baby, I can see,what your trying to do,criticize me,
cause i'm happy and your not,
why can't you see, that all I am is me,
I try and I try,
Why do I seem like this?
why can't I just be set free"

CHROUS

is there time to make the enemy fall,
my angel somewhere up there knows,
somewhere up in the sky, I know someone
I used to love, who passed away ,
is watching over me,
can I get,some happiness,
can I get a chance, when I take one?

Fall the enemy,
I dont want anything misheard or, misplaced
or thrown away'

I just wanna be, and hope you see'
I ant what you think at all'
So All I need is a little love' to be the girl you want
If you understand, I'd be more then happy,to see you

I dont take no for a answer,
what part of me dont you see,
what part of me you hate the most
fall the enemy
come on,let me be,
can I ever be set free,

I wont die, wonderin, I'll die in peice,
from this life, fall the enemy
