Today I think I finally made it
I just thought that if I talk to people
more they smile at me and start talking back
you know all I seem to wanna do is be with you
in this life I find so much unbelievable
but it's also beautiful

I discover something new here
there were thoughts for a long while
until one made up it's mind

in this life I find so much beautiful
in this life I can not see before hand
in this life I love everyone
.... cause i'm a lovable star

most people may not believe it
but most other people do

in this life I can be dark
in this life I can be strong
in this life I can change...}
In this life I can be a fighter
In this life I make my own choices'

yes in this life I get what I see
oh i'm so too lucky
in this life i'm loved..
lot's of things I too much

in this life I find so much beautiful
in this life I can not see before hand
in this life I love everyone
.... cause i'm a lovable star.
