take my seat, why dont you
as well as take over the world
bitch skank, who the hell do you think you are
sorry your impressions got under my skin
just releasing some pissy emotions

here you go you take my seat
sick obsession,
sick luck,
sickkk broken dream
you and my old dream
are gonna live happy ever after
just trying to live my life
here an there
almost there untangled.....

here you go , you take my seat,
sick obsession,
sick luck, sick broken dream
you and my old dream
live happy together
just trying to live my life
here and there, almost there untangled,

darkest faear takes over ,
i'm dyinggggg.....here in my thoughts
i cant think anymoree
just unhealed - let me go
this life sucks

here you go, you take my seat

chorus

ohhh take my seat
