What happened to me

la de da,
oh yeah

what happened me,
has nothing to do with you
wish you never ever bothered
with someone like me
Wish all the emotions within would disappear
and my world would go strong
once and for all
now I'm wonderin, what is my future holding in
tight for me,

what happened to me
where has myself gone
ever since you broke my heart
haven't been able to move, on
because of how much I loved you
what happened to me?

wish tables would turn
and I'd get strong
no questions asked
oh wish I could be the girl
I wanna be,
someday you gotta know
that, what happened to me
has nothing to do with you
wish tables would turn
and I'd get strong

wish I had all the answers,
wish I knew what life was
wish I had the chance to dream,
to be with you once again
oh yeah

la de da, oh yeah

what happened to me?
what happened to the girl
I used to be, not that long ago
no fun without her.,
once again
what happened to me,?
what do I do without you here by my side

Wish I had the answers to everythink
no questions asked
what happened to me?
no fun without the girl I used to be,
I used to be strong, now all the sudden I'm weak
wish tables would turn and I'd get strong
just like I dare to dream,

oh la de da,

what happened to me
dosen't have anythink to do with you
wish you only knew,
how much you ment before you lefted me
heart broken,
what happened to me?

oh yeah
la de da, oh yeah

where is the true girl from within gone?
