Blue skies and brown eyes  
Tulips by the riverside  
And your mind is always lost inside

And I knew it was you  
Who had a different point of view  
And I paid no mind  
To the soul I lost inside

A web of nighttime skies  
The stars went up the mountainside  
And my music made you feel alright

And I knew it was you  
Who had a different point of view  
And I paid no mind  
To the soul I lost inside

The blue skies and brown eyes  
Tulips by the riverside  
And your mind is always lost in flight

And I knew it was you  
Who had a different point of view  
I paid no mind  
To the soul I lost inside

I knew it was you  
Who had a different point of view  
I paid no mind  
To the soul I lost inside
