The stars have eyes
Of brilliant green
They know what I do
And all the days that I've seen

And they see you
Sleepin' in your car
And daydreamin' too
You're swingin' on a star

I'm gonna stand here night and noon
Starin' at the moon

The stars have eyes
Like a springtime dream
Keepin' us cool
And keepin' us clean

And they see you
Playin' air guitar
And singin' it too
I'm thinkin' you'll go far

I'm gonna stand here night and noon
Staring at the moon
