"The Stars Have Eyes"

Visit "[The Stars Have Eyes](#)" on MotoLyrics.com

The stars have eyes
Of brilliant green
They know what I do
And all the days that I've seen

And they see you
Sleeping in your car
And daydreaming too
You're swinging on a star

I'm gonna stand here night and noon
Staring at the moon

The stars have eyes
Like a springtime dream
Keepin' us cool
And keepin' us clean

And they see you
Playin' air guitar
And singing it too
I'm thinking you'll go far

I'm gonna stand here night and noon
Staring at the moon
