Now Timbaland this crazy right here
We gona do it like this in in 2004
I'm feeling this one, you feeling this one right
We gona bring it crazy right

Got no time for the thick one
They smile and smile in your face
When they leave they say some
But you too good, and let them play dumb
Don't you stoop on the level, No education-ion
Now don't get mad(Go and brush your shoulders off)

Chorus
Go and brush your shoulder off(Go and brush your
shoulders off)
Like JZ sai-d
(Go and brush your shoulders off)
Go and brush your shoulders off...x5

Misery needs company
so you be the bigger one and get up and leave
cause ain't no stoppin us
keep rockin
Thet smile and smile in your face
Backstabbers mean nothing
oh-oh-oh-oh-oh-oh

Chorus
