Verse 1:

I don't want your number boy, just want your body,
you can keep the conversation for some other hottie.
I got a one track mind, baby don't worry!
No dinner dates and movies...just come on and hurry!

Chorus:

It goes
Left right keep it tight,
Doing things I know he like,
Do your job and I just might
Bring you home tonight!
It goes
Left right keep it tight,
Doing things I know he like,
Do your job and I just might
bring you home tonight!

Don't make me wait too long,
Just play my favorite song,
I'll get my vanity 6 on!
Don't make me wait too long,
Just play my favorite song,
I'll get my vanity 6 on!

Verse 2:

Dont need no roses,
Ain't like them other chicks...
If you don't wanna comply,
Then I can find another...
Ooo
Im not a nasty girl, just being honest,
If you thing my mouth is bad
Baby just watch this!

Chorus:

It goes
Left right keep it tight,
Doing things I know he like,
Do your job and I just might
Bring you home tonight!
It goes

Left right keep it tight,
Doing things I know he like,
Do your job and I just might
Bring you home tonight!

Just play my favorite song,
I'll get my vanity 6 on!
Don't make me wait to long,
Just play my favorite song,
I'll get my vanity 6 on!

Every girl can do it
It's all in how you move it
Get your vanity six on
Every girl can do it
It's all in how you move it
Get your vanity six on

Chorus:
It goes
Left right keep it tight,
Doing things I know he like,
Do your job and I just might
Bring you home tonight!
It goes
Left right keep it tight,
Doing things I know he like,
Do your job and I just might
Bring me you home tonight!

Don't make me wait too long,

I'll get my vanity 6 on!
Don't make me wait too long
Just play my favorite song,
I'll get my vanity 6 on!
