There's nothing i want more in this world  
then to see you smile  
baby if i was still your girl  
i can make you realize  
that all the love i have for you  
grows stronger by the day  
but you up and ran away  
i tried my best to make you stay

i still love you in a thousand ways  
still not enough for me to make you stay  
try to hold you close but you push away  
don't know what i can do to make you stay  
what i feel is real this is not a game  
still not enough for me to make you stay  
i wanna love you but you run away  
show me what i can do to make you stay

heaven knows i've tried and i'll try  
to be more than fair with you  
ever single time you were feeling down  
it was me who pulled you through  
what happened to all those promises yea  
and all the love we made  
still you up and ran away  
i try my best to make you stay

don't you know there's so many reason why we should  
be more than friends  
cause you know it's alright together  
don't want this to ever end  
baby can we please find a way to try our love again

i still love you in a thousand ways  
still not enough for me to make you stay  
try to hold you close but you push away  
don't know what i can do to make you stay  
what i feel is real this is not a game  
still not enough for me to make you stay  
i wanna love you but you run away  
show me what i can do to make you stay

don't you know there's so many reason why we should  
be more than friends  
cause you know it's alright together  
don't want this to ever end  
baby can we please find a way to try our love again

i still love you in a thousand ways  
still not enough for me to make you stay  
try to hold you close but you push away  
don't know what i can do to make you stay  
what i feel is real this is not a game  
still not enough for me to make you stay  
i wanna love you but you run away  
show me what i can do to make you stay

i still love you in a thousand ways  
still not enough for me to make you stay  
try to hold you close but you push away  
don't know what i can do to make you stay  
what i feel is real this is not a game  
still not enough for me to make you stay  
i wanna love you but you run away  
show me what i can do to make you stay
