Further into the fog I fall  
Well, I was just following you

When you said do as I do and scrap your fey ways  
Dial a cliché  
Grow up, be a man and shut your mealy mouth  
Dial a cliché, dial a cliché

But the person underneath, where does he go?  
Does he slide by the wayside or just die?  
And you find that you've organized your feelings for  
people  
Who didn't like you then and don't like you now

Yet you say do as I do and scrap your fey ways  
Dial a cliché  
Grow up, be a man and shut your mealy-mouth  
Dial a cliché

The safe way is the only way  
There's always time to change some  
I've changed but I'm in pain
