She's the type of girl that makes you feel better  
It don't matter how you used to feel  
She's the type of girl that follows good weather  
And the sun brings out her sex appeal

If you want to talk to her it don't matter  
You'll be breathless when she calls your name  
Or I bet that you can hear the rain

These are the good times in your life  
So put on a smile and it will be alright  
These are the good times in your life  
So put on a smile and it will be alright  
These are the good times in your life  
So put on a smile and it will be alright  
These are the good times in your life  
So put on a smile and it will be alright

How do you think I can make you feel better?  
How do I know what you say is real?  
Writing an imaginary love letter  
Talking mostly bout her sex appeal

If you want to talk to her it don't matter  
You'll be breathless when she calls your name  
Or I bet that you can hear the rain

These are the good times in your life  
So put on a smile and it will be alright  
These are the good times in your life  
So put on a smile and it will be alright  
These are the good times in your life  
So put on a smile and it will be alright  
These are the good times in your life  
So put on a smile and it will be alright

These are the good times in your life  
So put on a smile and it will be alright  
These are the good times in your life  
So put on a smile and it will be alright  
These are the good times in your life

So put on a smile and it will be alright  
These are the good times in your life  
So put on a smile and it will be alright
