I've done way
With all the things
That made me stray
So far away
From love, I was blinded by the industry
But I couldn't deny that it was something about her

Amazing, compelling,
A love song, where the story began and
So flawless, perfection
I could never deny that it's just something about her

If you listen, you can hear my heart
Beating to a cadence that could never stop
Me and her sitting in a tree, we be K-I-S-S-I-N-G
And I can't explain this, fusion between us
I can't complain this, fusion between us
Just turned my heart completely around
And I'm so proud to have this fusion between us

Look I'm startled, I stare to her
And our hearts start to touch
Can be the way from her
Just turned my heart completely around
And I'm so proud to have this fusion between us

When she asked me
Quality completes me
She is me
And I'm her
So we're one
And I must admit that there is just something about her
A couple, reunion
Enchanting, so beautiful
Romantic and moveable
You gotta admit there is just something about us

And if you listen you can hear our hearts
Beating to a cadence that could never stop
Me and her sitting in a tree, we be K-I-S-S-I-N-G
And I can't explain this, fusion between us
I can't complain this, fusion between us

Just turned my heart completely around
And I'm so proud to have this fusion between us

Look I'm startled, I stare to her
And our hearts start to touch
Can be the way from her
Just turned my heart completely around
And I'm so proud to have this fusion between us

And I gave up on love again and again
Even lost my heart, but she found it for me
And I'm thankful I found this place
Right inside her heart, such a safe place

Fusion, fusion
And now I can't explain
And I can't explain this, fusion between us
I can't complain this, fusion between us
Just turned my heart completely around
And I'm so proud to have this fusion between us

Look I'm startled, I stare to her
And our hearts start to touch
Can be the way from her
Just turned my heart completely around
And I'm so proud to have this fusion between us
