"Plug It In"

Visit "[Plug It In](#)" on MotoLyrics.com

Look in a mirror, time to face up
Ever tried to live without the photographs and money?
Don't have to live behind the make up
Cos all I want is whats itching inside of you

Cos I see ya sitting in the rain
With the tears running down, running down your face
It makes me shiver when I see you like this
But ya stop in your hurry watch ya fade away
Cos I see ya sitting in the rain
With the tears running down, running down your face
Can't ya see it's a master race
Get yourself together

Plug it in, plug it in baby
Where you been, where you been baby
Plug it in, plug it in baby
Where you been, where you been baby

I wouldn't say that it's so serious
I know you think you in a tragic confussion
You know I'm a little bit more than curious
When all I want is what's kicking inside of you

Cos I see ya sitting in the rain
With the tears running down, running down your face
It makes me shiver when I see you like this
But ya stop in your hurry, watch ya fade away
Cos I see ya sitting in the rain
With the tears running down, running down your face
Can't ya see it's a master race
Get yourself together

Plug it in, plug it in baby
Where you been, where you been baby
Plug it in, plug it in baby
Where you been, where you been baby

Plug it in
Plug it in

Ever tried to live without the makeup
Ever tried to live without the makeup
Ever tried to live without the makeup
Ever tried to live

Plug it in, plug it in baby
Where you been, where you been baby
Plug it in, plug it in baby
Where you been, where you been baby

Plug it in, plug it in baby
Where you been, where you been baby
Plug it in, plug it in baby
Where you been, where you been baby

(Plug it in, plug it in baby)
(Where you been, where you been baby)
(Plug it in, plug it in baby)
(Where you been, where you been baby)

Just plug it in
Just be yourself babe
Be yourself
