"I Begin To Wonder"

Visit "[I Begin To Wonder](#)" on MotoLyrics.com

And when I'm walking down the street I call your name
Inside my head I go insane
Don't you know that's really making me crazy
And all the days when I went completely blind
No time to think and I lost time
You won't believe what's happened to me lately

'Cause everyday it's the same thing
Different places with no name
Places I've never been before
And everyday it's the same thing
Different places with no name
Places I've never been before

And I begin to wonder
(Don't you know that's really making me crazy)
And I begin to wonder
(You won't believe what's happened to me lately)

'Cause everyday it's the same thing
Different places with no name
Places I've never been before
And everyday it's the same thing
Different places with no name
Places I've never been before

And when I'm walking down the street I call your name
Inside my head I go insane
Don't you know that's really making me crazy
And all the days when I went completely blind
No time to think and I lost time
You won't believe what's happened to me lately

'Cause everyday it's the same thing
Different places with no name
Places I've never been before
And everyday it's the same thing
Different places with no name
Places I've never been before

And I begin to wonder
(Don't you know that's really making me crazy)

And I begin to wonder
(You won't believe what's happened to me lately)

'Cause everyday it's the same thing
Different places with no name
Places I've never been before
And everyday it's the same thing
Different places with no name
Places I've never been before

I'm walking down the street, I call your name
(You know I was calling to you the other day, you didn't
hear me)
You're making love to me, I do the same
(You made things, commanded me, that I never
thought I can do before)

And all the days when I went completely blind
(I was still on the out way heading, it made me look
crazy)
(Completely crazy)
No time to think, I lost time
(I hadn't known why everyone he looks get doing it on)

And I begin to wonder
(You know I was calling to you the other day, you didn't
hear me)
And I begin to wonder
(You made things, commanded me, that I never
thought I can do before)

And I begin to wonder
(I was still on the out way heading, it made me look
crazy)
(Completely crazy)
And I begin to wonder
(I hadn't known why everyone he looks get doing it on)
And I begin to wonder
