I knew that you'd be sleeping when I got home last  
night  
All you ever want to do is sleep and need the fight  
Say you're always all worn out from the work you have  
to do  
So I come home a drinkin' to a worn out wife like you  
Yes I come home a drinkin' to a worn out wife like you  
Seems like you never wanna do the things I like to do  
Each time I try to hold you you're asleep before I do  
So I come home a drinkin' to a worn out wife like you  
[ steel ]  
I never take you anywhere cause you're too tired to go  
You say it's all that you can do to wash and cook and  
sow  
If you don't want to kiss me well the bottle will have to  
do  
I come home a drinkin' to a worn out wife like you  
Yes I come home a drinkin'...  
So I come home a drinkin' to a worn out wife like you
