I use to call her my baby
She even wore hats to the back
With a skirt, drove a Mercedes
I thought that she was all I needed
She even finished my sentences
Ohh babe you're so amazing
But then one night I fell into a trap
I went out to the club and that was that
Fell right back to the game, that I loved and I played

Ohh, is so damn tempting
when thier backs are exposed
I just wanna impose and I forget, that I got my baby
Just waiting at home for my lovin' and kissin' yeah
But it's my loss
I entered the field and I didn't use my shield
Now at my own cost
She left me behind, cause I couldn't deny these

Girls...
You got that thing
You make me do stupid shhhh
I don't even mean
I just wanna love you long time
Love you long time it makes me feel high
You make me wanna get inside
I'll work until I ride
Don't mind the competition
Cause it gets me more excited
I just wanna love you long time
Love you long time it makes me get high

Guess I'm a fool I couldn't choose
Now I've traded my life for some fun silly nights
My head just wasn't in the right place
If you know what I mean and that is real
I'm back to one back to the start
Cause saying no became too hard and it's a shame
That I became something I'm not...
Ohh, is just too damn tempting
When their shirts are so low
I get a natural glow and I forget, all about my baby

Really miss her a lot, I should of never gone out... no
but it's my lost
I entered the field and I didn't use my shield
Now at my own cost she left me behind
Cause I couldn't deny these

Girls...
You got that thing
You make me do stupid shhhh
I don't even mean
I just wanna love you long time
Love you long time it makes me feel high
You make me wanna get inside
I'll work until I ride
Don't mind the competition
Cause it gets me more excited
I just wanna love you long time
Love you long time it makes me get high

These feelings won't set me free
Cause I try but don't succeed
I heart it calling my name
Won't you won't you come get me
I can't help but to explore
From the city to the shore
I hear it calling my name
So hard to say no because...

Girls...
You got that thing
You make me do stupid shhhh
I don't even mean
I just wanna love you long time
Love you long time it makes me feel high
You make me wanna get inside
I'll work until I ride
Don't mind the competition
Cause it gets me more excited
I just wanna love you long time
Love you long time it makes me get high (2x)
