Oh I will take you away with me  
As far as I can  
Every sky would be blue  
Long as you lovin me

Listen.. The world could explode  
For all that I care  
Cause I'm alone with you  
Think they could clone you too?  
It may be too much but I'm willing, I put my money on it  
You think I'm crazy, right?  
You make me lady like  
Like, wanting to wear lace  
Wanting to say yes to giving into you  
intimacy is painless  
it's easier to keep runnin than switchin faces up  
ok, i'm stuck.. do you hate me or what  
I wanna date you, go steady and wear your letter pin  
or your letterman sweater like Ola Ray but I'm hesitant  
Not you, it's me now i'm a cliché  
wanna bend plie for you flip positions as a cliché? do  
just gotta relay truth i love to be together, breathe  
together  
Jean say soon we could be forever,  
see whatever we make bloom  
just afraid I could be playin out a replayed tune... look  
at you

Oh I will take you away with me  
As far as I can  
Every sky would be blue  
Long as you lovin me

Attention span was A.D.D.S.  
Before we met, on occassion was frequent  
I know how deep I get in emotional reconnect  
I'm bringing baggage like conveyer belts and leer jets  
or bellboys at the telly, we chillin in till noon  
revealing the city below us, incredible views  
we're feeling the feeling below us i'm intending to  
i've never felt this safe i gotta hand it to ya  
as the phrases escape i'm breakin hand quiver

must be candid lust there's no damaging, plus  
be no standards in love be lust.. yes  
what's best for me never seems to ever be what's next  
to me  
exception... you  
so excuse me if i question too thorough  
or keep you waiting i might  
break down, shake defense off  
change mind, change clothes and take the weekend  
off
