A group of men and women entered the biosphere one  
month ago  
To live in a self-sustained world  
Body movements, emotions and sexual activity  
Are to create the energy to survive.  
A total mystery surrounds this experiment  
And its project's code name: Teo & Tea.

[Instrumental]

Teo & Tea!

[Instrumental]

Body movements, emotions and sexual activity...  
A group of men and women...  
A total mystery surrounds this experiment...
