### "Be Nice To Everybody"

Visit "[Be Nice To Everybody](#)" on MotoLyrics.com

There you go drivin' in your big long car you got a  
house overlooking the town  
But be nice to everybody on your way up you're gonna  
need 'em again coming down  
You don't even speak when we pass on the street you  
don't even know your old friends  
But don't get too proud you're gonna need the old  
crowd  
Cause we all remember you when  
There you go drivin' in your big long car...  
[ piano - steel ]  
Not long ago you crossed over the tracks and now you  
don't know me at all  
Takes a long time you know for a big tree to grow but  
just a few seconds to fall  
There you go drivin' in your big long car...  
There you go drivin' in your big long car...  
You're gonna need 'em again comin' down  
You're gonna need 'em again comin' down
