"Bright Lights And Country Music"

Visit "[Bright Lights And Country Music](#)" on MotoLyrics.com

(I love those bright lights and country music)
I won't stay round and cry tonight like all the nights
before
I've just learned that I don't really need you anymore
I found a little place downtown where girls like me can
go
And they've got bright lights and country music
Bright lights and country music a bottle and a glass
And soon I'll be forgettin' that there ever was a past
And when everybody asks me what helped me forget
so fast
I'll say bright lights and country music
(Bright lights and country music)
A table by the bandstand a bottle filled with wine
Honky tonks were made to get an old love off your
mind
Nothing else can take away this loneliness of mine
Quite like bright lights and country music
Bright lights and country music...
I love those bright lights and country music
