I guess I'll take a walk tonight I know that I can't sleep
And I won't go too bad at all I'll just lay there and weep
Instead I'll make our favorite spot that's what I think I'll
do
I've got those smoking cigarettes and drinking coffee
blues
Smoking cigarettes and drinking coffee all night long
Wondering how the love so right could suddenly go
wrong
I'd grab the next bus out of town but I've got to be near
you
I've got those smoking cigarettes and drinking coffee
blues
[piano]
Sittin' at the table where my carved our names
Wonderin' how our love went grow wondering who's to
blame
Listenin' to the jukebox plays the song that makes me
blue
Another cup of coffee and a cigarette or two
Smoking cigarettes and drinking coffee all night long
Wondering how the love so right could suddenly go
wrong
A lot of bout the people know the miserys I go through
I've got those smoking cigarettes and drinking coffee
blues
