From this day on I ain't a gonna love nobody  
I've had my heart pulled up too many times  
You've been in and out of here until I can't tell a  
deifference  
Are you coming or going this time  
We're just not meant for each other that's a fact  
If I don't see you walkin' in I'm a lookin' at your back  
I know you've only come home when you ain't got a  
dime  
Are you coming or going this time  
[ harmonica - steel ]  
When you leave me that's the only time I'm happy  
Then you come in and nearly let me lose my mind  
If you left for good be only thing I'd miss is the  
confusion  
Are you coming or going this time  
We're just not meant for each other...  
[ guitar ]  
If you left for good be only thing I'd miss is a confusion  
Are you coming or going this time
