"Foggy River"

Your love is colder than a foggy river flowing o'er a
heart of stone
You left me stranded on this foggy river drifting
helpless and alone
Can't escape this broken heart of mine there's no
freedom anymore
Oh heaven help me on this foggy river help me find the
distant shore
[steel + guitar]
There's no tomorrow on this foggy river only mem'ries
linger on
A mist of sorrow chills this foggy river everything I love
is gone
I always knew some day you'd let me down I've got
troubles on my mind
Guess I'm doomed to sail this foggy river till I leave
your love behind
