"I Want You Free"

Visit "[I Want You Free](#)" on MotoLyrics.com

If my words should ever strike you like the rattlin' of
chains
And my voice should ever make you long for trains and
boats and planes
May I live a million years and never feel your touch
again
I want you free I want you only if and when you want me
[ac.guitar]
If you ever get to feeling that you've stayed away too
long
And something I have said makes you dread just
coming home
May I live a lonely life without a love to call my own
I want you free I want you only if and when you want me
I want you free I want you free unwilling love ain't good
enough for me
Though heaven knows I love your lovin' me I want you
free I want you free
[ac.guitar]
If you ever cease you love me never think that I won't
know
If you ever come to me just cause there's no place else
to go
May the next one that you love destroy your spirit and
your soul
I want you free I want you only if and when you want me
I want you free...
