"I'll Thank You All My Life"

Visit "[I'll Thank You All My Life](#)" on MotoLyrics.com

For overlooking what I've been and saying you love me
You'll never know just what it means that from my past
I'm free

For seeing the real me believe my lonely gaitest guys
For looking right into my heart I'll thank you all my life
I saw you in a crowd that night you were different from
the start

I fell for you but never hoped that I could win your heart
I'll ask the good Lord up above I'll ask him every night
Who make me worthy of your love I'll thank you all my
life

[guitar]

Oh I'll love you a thousand years and faithful I will be
For giving me a love that's real a dream that I can see
Once down the wrong road I was led by faithless love
and life

For making me believe again I'll thank you all my life
For house that's ours and I don't care if it is large or
small

Some boys and girls that I don't care if they are short
or tall

For overlooking what I've been my past and wasted life
And giving all of this to me I'll thank you all my life
