(Jan Crutchfield)

I'm gonna stay right here beside him
'Cause a woman's place is with her man
So many times a man gets lonesome
And that's when he needs a helping hand.

A woman's hand though soft and gentle
Can do so much to help her man
Just holding him each time he needs you
The power of love is in a woman's hand.

It's a woman's hand that makes a man go searching
It's a woman's hand that makes a man stay home
For he can't do either one without a woman
It's a woman's hand that leads him right or wrong.

For he can't do either one without a woman
It's a woman's hand that leads him right or wrong...
