If you think her eyes're brighter look at mine  
If you think her lips are softer look at mine  
If you think her love is stronger don't you wait around  
much longer  
Stop awhile take a time and get yourself to my place  
and look at mine  
If you think her clothes're better look at mine  
If she writes you nice love letters look at mine  
If you think her heart is willin' don't you wait to make a  
spillin'  
Stop awhile take a time and get yourself to my place  
and look at mine  
Look at mine look at mine look at mine I've got  
everything you need all the time  
If you think her smile is sunshine look at mine  
If you think her looks are so fine look at mine

If you think her future's better just forget the day  
you've met her  
Stop awhile take a time and get yourself to my place  
and look at mine  
If you think her smile is sunshine....  
Hey look at mine look at mine look at mine look at mine  
look at mine look at mine
